EXECUTIVE SUMMARY

Sector:
Health

Sub-sector:
SaaS Platform & AI

Website:
meditect.com

Funding Stage:
Growth Stage

Founded:
2018

Locations:
France (HQ), Côte d'Ivoire

Business Model:
B2B

Meditect is improving access to essential medicines in French-speaking Sub-Saharan Africa by building a connected digital healthcare ecosystem. Meditect addresses critical supply chain failures that leave pharmacy shelves empty and patients without care. Through its proprietary cloud-based pharmacy management software, Meditect enables drugstores and pharmacies to manage inventory efficiently, reduce medicine waste, and improve the availability of essential drugs.

Meditect is present in 9 African countries and has more than 500 active pharmacy users. Its standout technology includes a “mobile-first” and “touch-first” design, real-time analytics, and an AI-powered platform that provides valuable insights to pharmaceutical companies, NGOs, and public health authorities.

INNOVATION SPOTLIGHT

Meditect's core innovation is an AI-powered cloud-based pharmacy management software that helps pharmacies and drugstores manage real-time inventory, reduce expired stock, and maintain consistent availability of vital medicines. Meditect support health authorities, pharmaceutical companies, and NGOs with drug traceability and actionable data insights, enabling better healthcare planning and improved patient outcomes.

Key Features:

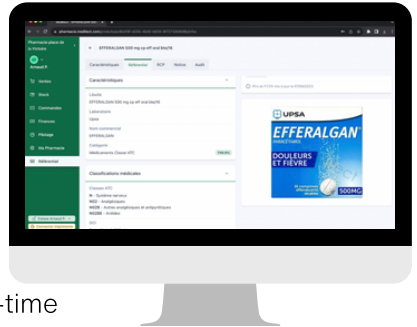

Pharmacy Management Software

A cloud-based platform that helps pharmacies manage inventory, sales, and reporting, reducing expired stock and improving medicine availability.

Real-Time Data Analytics and AI

Medictect provides authorities and pharmaceutical stakeholders with real-time insights on medicine availability and usage trends, enabling data-driven decisions.

INNOVATION SPOTLIGHT

Market and Social Impact

Medictect operates in the rapidly growing healthcare market of French-speaking Sub-Saharan Africa, serving over 250,000 patients and supporting over 500 pharmacies across eight countries. Socially, Medictect improves medicine availability, combats counterfeit drugs, and strengthens last-mile healthcare delivery in underserved communities.

Scalability of Innovation

Medictect's innovation is highly scalable, designed to serve thousands of pharmacies across emerging markets with minimal on-site infrastructure. Its cloud-based and mobile-first architecture allows for rapid deployment and adoption, even in remote or low-connectivity regions. As Medictect expands, it can easily integrate additional services without disrupting its core system, making it adaptable for broader regional and sectoral growth.

Partnerships

Medictect has established a robust network of partnerships that significantly bolster its mission to enhance medicine traceability and accessibility in French-speaking Sub-Saharan Africa. These collaborations include *UPSA*, *Gates Foundation* and *Nouvelle-Aquitaine*, providing Medictect with the resources and support necessary for technological advancement and regional expansion.

Future Outlook

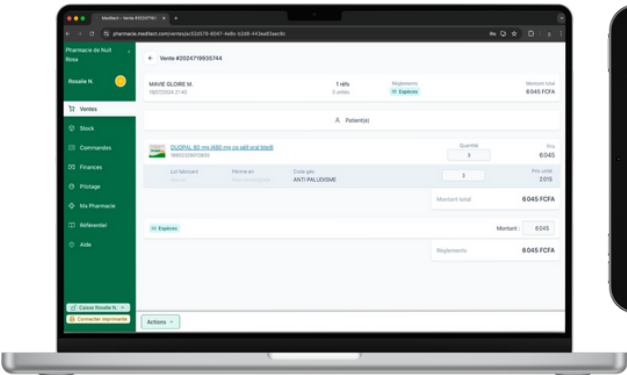

Medictect aims to serve 10 million patients monthly by 2030 by providing quality care and affordable medicines across French-speaking Sub-Saharan Africa. With a growing presence in 17 countries, the company is building digital infrastructure to transform healthcare access. Its comprehensive solutions include pharmacy management software, drug traceability, patient apps, and data-driven insights for stakeholders.

INNOVATION IN VIEW

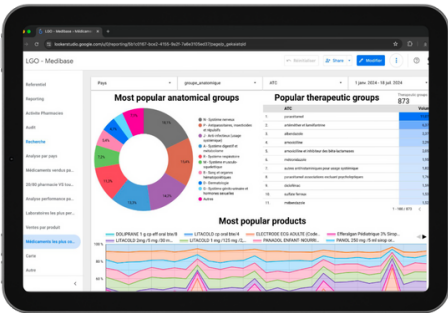

Meditect's platform features an intuitive, mobile-first and touch-optimised design, making it accessible and easy to use in low-resource settings.

The software integrates with pharmacies' hardware setups to streamline point-of-sale and inventory control, creating a comprehensive digital infrastructure for seamless healthcare delivery in Africa.
